WHO ARE WE

Scan to know more

Cosmopolitan School is a community of care challenge and tolerance, a place where students aged 3 to 13 around the whole nearby area meet., study and enjoy together in as environment which is exceptionally beautiful safe, culturally profound and inspiring to the young minds. The excellent, academic, athletic and artistic instruction available give the true national level education, one which not only prepares them for the further studies but also enrich their lives within a multi-cultural family environment.

The School is responsible to parents wishes and flexible to respect each student as an individual. Student whose creativity, imagination and critical judgement require daily challenge and who strive for excellence will find their School years filled with joy and excitement at Cosmopolitan School.

WHAT WE DO

Using our world-class curriculum, innovative digital teaching system and the well experienced teachers, we create a mind blowing learning environment among the students.

**World-class
Curriculum**

**Digital Teaching
System**

**Well Experienced
Teachers**

MESSAGE FROM THE DESK OF DIRECTOR

Our mission is to provide student with the necessary skills of both mind and heart that will enable them to approach life with a sense of inquiry and purpose. We believe that the environment which encourages the fullest development of student's potential is one that affords the opportunity to explore creative as well as intellectual abilities. We believe in working together in a spirit of co-operation not conformity, seeking to cultivate and express what is excellent in each.

Intellectual curiosity and a spirit of inquiry are the activating factors in the educational process while active participation in school community builds caring and responsible individuals, promoting lives of integrity, awareness and purpose. Life can be lived in its fullest sense through life long efforts towards personal development and growth.

PROFESSIONALLY COMPETENT STAFF

We believe that an alluring environment, abundance of resource and professionally competent teachers immensely contribute to and sustains children's education. Most crucial to the quality of education are the teacher's professional competence, their commitment and concern for the development of children entrusted to their care. It is in view of these requirements that every teacher is appointed through a stringent process of selection. Each teacher at Cosmopolitan School is a member of the family and reflects the ideals and excellence the school stands for. The child's optimal and comprehensive development is our paramount objective.

PROJECT WORK & EXHIBITIONS

The latent creative abilities of students are kindled, inculcated and reinforced through various project work and exhibitions held in the school. The innate potential of each child comes to the surface and gives him a better understanding of the subject while providing relief from the monotonous work of the class.

PARENTS-TEACHERS MEETING

The school believes in teaming up with the parents to fulfill its mission. The parent-teacher meetings are held periodically to inform the parents about the development and progress of their ward which enables both the school and parent to do better for the child. The participation of parents in school parent-teacher meetings, school functions and programs is highly appreciated.

TRANSPORT FACILITY

The school have its own buses and cabs for transportation (planning to purchase more in near future) which are plying in the radius of 10 km. managed by trained and experienced drivers and conductors and managed by the transport in charge. Every bus has a teacher in charge to look after the discipline and well being of the children in the bus.

GUIDANCE & COUNSELLING

The school has its own shop in the campus that provides the prescribed books, School uniform, stationary articles and items of daily need to students on all working days during the fixed hours.

BEYOND THE CLASSROOMS

Cosmopolitan School endeavors to develop the innate potential of the learners in the most meaningful and productive way. It provides a wealth of opportunities for co-curricular pursuits and a spectra of activities which are organised to broaden the horizon of learning experience of the students. A kaleidoscope of such activities stimulates the learning process, creates a spirit of healthy competition, building confidence and making it a pleasant life-time experience.
